

Question E:

I have an app that displays all people. It uses handlebars and MongoDB as it's database.

My issue is when I try to display all users which should look like this:

WEB322 - Test 5

People

Person ID	Full Name	Phone Number	City	Car Vin
1	Eudora De Mattia	529-713-0002	Libacao	3N1CN7AP6EL561139
2	Mady Rankcom	735-861-0412	Wuxia	5N1BA0ND0FN927332
3	Gabi Ashard	626-210-1807	Libacao	JN8AE2KP0D9490697
4	Arin Shillabeare	910-617-9608	Wuxia	JHMZF1D61ES643865
5	Reuben Adair	800-959-1236	Libacao	KMHFG4JG5DA778797
6	Ricard Di Biasi	221-910-2636	Sanchang	SALFR2BG4EH262840
7	Normy Velareal	420-940-6736	Wuxia	JN1CV6EK8DM097980
8	Livvy Foulgham	347-958-6861	Wuxia	WAUSH78E87A957827

I only get this:

WEB322 - Test 5

People

Person ID	Full Name	Phone Number	City	Car Vin
	Eudora			
	Mady			
	Gabi			
	Arin			
	Reuben			
	Ricard			
	Normy			
	Livvy			

Using the provided Handlebars page, route and data-service snippet. Tell me:

What is the problem and how can I fix it?

Note: We can assume the server and the database is set up correctly as well as handlebars.
